Anthony Morgan is currently a teaching assistant at the department of petroleum engineering of KNUST. He holds a BSc. in Petroleum engineering with first class honors from the Kwame Nkrumah University of science and technology, Ghana.

Authors' Profiles

Samuel A. Afari received his BSc. and MSc. degrees in Petroleum Engineering from the Heriot Watt University, UK (2012) and Kwame Nkrumah University of Science and Technology (KNUST), Ghana (2010), respectively. He currently serves as an Assistant lecturer at the department of petroleum engineering of KNUST and been teaching and active in research since 2012, with a number of publication to his credit.

Kwame Sarkodie is also currently an Assistant Lecturer at the department of petroleum engineering since 2012. He holds a BSc and MSc in Petroleum engineering from the Kwame Nkrumah University of science and technology, Ghana and Heriot watt university, UK respectively. He has a number of publications to his name.

Wilberforce Aggrey holds a BSc. and MSc. in petroleum engineering from the Kwame Nkrumah University of science and technology, Ghana and Heriot watt university, UK respectively. He is currently an assistant lecturer at the department of petroleum engineering of KNUST. Before coming to the department, he serves as a teaching assistant at the Oil and gas engineering department of the All Nations University, Ghana between 2009 and 2011. He also worked briefly with Shell Ghana ltd. Mr. Aggrey currently has a number of publications to his name.
